Category is: Release – ‘**Upcoming Legendary**’ is the first in a series of singles coming out throughout the next year. A debut album, due in 2013, is also in the writing and planning stages.

Category is: Icon - The culture of balls and voguing have a heavy influence on the band’s debut single ‘**Upcoming Legendary**’. The film *Paris is Burning* is celebrated in their song for its iconic stature. The EP is a tribute to late ‘80s ‘12” single culture.

Category is: Origins - **Dubplate Dionysus** was an idea formed in 2012 by friends **Fred Royster**, a graphic designer by day, remixer/producer by night and **Matt Keppel**, lyricist/vocalist of electronic pop act **Microfilm**.

Category is: Inspiration - The duo had an idea to celebrate the dancefloor ecstasy of the late ‘80s/early ‘90s era of Chicago House, freestyle, and electrofunk all within the structure of a dancefloor-ready pop act.

Upcoming Legendary is out now for FREE download on their Bandcamp and Soundcloud pages. Feel free to spread this message far and wide. Be a Legend.
